Date Issued: Week commencing 24/11/2008

Date Due In: Week commencing 01/12/2008

Testing and User Documentation

Q1 What is the purpose of system testing?

Q2 What are the two types of test data used in system testing? Give definitions of both.

Q3 What is acceptance testing?

Q4 Copy and complete the table, by filling in the second column.

| Type of user documentation | Description |
|----------------------------|-------------|
| Installation guides | |
| User guides | |
| Tutorials | |

Q5 Why do technical documents contain more complex language and diagrams than user documents?

Q6 Describe two instances when technical documentation would be useful.
