## **Mobile phone/Multimedia**

Mobile phones, ipods, PDA's and the current range of multimedia devices have the capacity to store, send and receive video footage, photographs and audio tracks. Students should be aware that storing inappropriate or offensive material on a device that is brought into school creates the chance that other students may view or listen to them. Where a device is used inappropriately in school, and is confiscated, the school reserves the right to view/listen to such material when investigating serious incidents for up to 3 days to give us time to investigate any such offensive material.

Action may then be taken on the content of such material. Students should think very carefully before recoding, sending or receiving anything that may cause offence to students, their parents or teachers, or bringing such images into school on their mobile/telephone/multimedia devices.

### **User Declaration:**

I understand that if I do not keep to the AUP the trust in me has been broken. Disciplinary action may be taken, with the probability that I will be denied access to some or all of Nunthorpe's computer facilities, even if I need to use these for coursework or examination purposes.
